Annual E-Governance Report Approved by the Governing Body

Since last few years several reforms have been introduced in consultation with M. G. Vidyamandir, the Apex Body of the Institution, the College Development Committee (formerly LMC) and College Admission Committees to upgrade and accelerate the admission process with maximum students to be enrolled. Similarly, since 2010-11 and before, Vridhhi Software is being used for Entire Admission Process, Library, Office and Examination Section. Library section has been totally digitized through Vridhhi. There is a numerous module with Vridhhi required for running the functioning mentioned above.

Evidence of Success:

1. Admission Process has been executed through Vridhhi Software. Daily admission status- viz. number of students admitted, according to various functions like faculty, class, subject, category etc. can be easily accessed. Daily account of admissions is prepared simultaneously.
2. Book transactions, student and staff visits, New Arrivals can be accessed at any time.
3. Office workings have been computerized to enable to meet the workload with minimum number of staff available. It also enhanced the speed of working.

Annual E-Governance Report Approved by the Governing Body

A review of the functioning of Vriddhi Software has been taken. All the modules of the system were found satisfactory and as per the requirements of the college. So, the College Management, with guidance from the MGV Management and Board of Trustees decided to continue the Vriddhi Software for the smooth functioning of the College system digitally. The vendor was informed to provide the updates as and when available.

Purchase of KIBO Software for Library

Our College Library one of the largest and oldest libraries in the Savitribai Phule Pune University Circle. It has a rich collection of over 1,52,444 books including exclusive references which are referred by many outside researchers and on campus students. Along with entire digitization, the College Management, in consultation with M.G. Vidyamndir's Trustees and the College Librarian, decided to purchase the KIBO XS Software primarily for establishing easy access of library facilities to the blind students and visitors. Accordingly, KIBO XS has been purchased from Trestle Labs Pvt. Ltd. during this year. It is the unique feature of our library. The facility is still in continuation.

Evidences of Success:

- The blind students are getting advantage of this unique facility available with our Library.
- Many researchers from other colleges/institutions visit the library for referring to the rare references.

AY 2020-2021

Annual E-Governance Report Approved by the Governing Body

Since 2020-2021, the Management of M. G. Vidyamandir had decided to develop its own software, Campus 360 to fulfill all the digital needs of all the Colleges, Jr. Colleges, High Schools and even Primary Schools housed by it. The team from a specifically developed IT Section of the Management has evolved Campus 360 for Educational Purpose. All the Staff, both teaching and non-teaching, was given rigorous training in this regard. The software is being updated, as and how it is needed, through the suggestions and queries registered by the workforce at different places. In all, Campus 360 has replaced Vriddhi software totally. The Websites of all the Colleges, Schools are also being developed by Campus 360. Websites designing was done from outside firm, BrainMine Web Solutions Pvt. Ltd.

First and foremost, thing to be worth noting is that now the Management has its own Educational -All-in-One Software. No extra expenses are to be paid. Uniform structure of Website is maintained throughout. It is successfully run at all the Units including Sr. Colleges, Jr. Colleges, High Schools and Primary Schools run by M. G. Vidyamandir. All the staff have login address and they update their profiles through this software as it is done at the University Portal.

Online Teaching-Learning and Semester Examinations

- As online learning and examination process were totally new to students, teachers went through a number of ways.
- To resume teaching and examination process, teachers used online platform such as Google meet, Zoom etc.

- Students also enjoyed this new mode of learning from their home just by clicking the link provided to them by their teachers.
- Following the mandatory guidelines from the UGC, the University and the State Government, the college conducted online semester examinations.
- Teachers posted Examination schedule to the students via WhatsApp Groups prepared class wise.
- Students were explained the guidelines of University regarding filling examination forms, payment gateway, question paper pattern, online examinations, do's and don'ts during the examination etc.
- Seminars, Project and Practical via voce for the UG and PG students were conducted inline. The students uploaded the supportive project work.
- The Colleges conducted National, International Webinars and Online Conferences, online quizzes etc. to utilize the pandemic period fruitfully.
- Teachers attended the same organized by other colleges and learnt new ways of confronting this situation.

Evidences of Success:

- The online academic activities helped the bridge the gap between teachers and students successfully.
- Good number of students and their active participation in interaction was encouraging.
- Although blackboard teaching is effective, online learning was helpful for the students in various respects such as saving time, money, travel which was impossible in pandemic etc.
- Students were amazed by new ways of learning e.g., PPTs, Videos, Animations etc.

A Zoom Platform Subscription for Online Teaching

Covid-19 pandemic has its overall effect both good and bad as well. Same is true so far as education field is concerned. The worst was that schools and colleges were forced to shut down for longer time. To face the challenges of availability of online platforms and readiness of the teachers for digital learning and teaching was a serious concern. Of course, Covid-19 acted as a catalyst in using digital adoption in the Colleges. It provided various online teaching/meeting platforms through which at least teachers would be in touch with students and establish connectivity to help them in learning and examinations also. NEP-2020 also demands the Blended mode of teaching where these practices would be beneficial.

MSG College also decided to purchase a subscription of Zoom for online teaching. All the teachers used the same not only for teaching but also for maintaining the morale of the students by counselling continuously. The College has its YouTube Channel.

Evidences of Success: All the teachers could complete the syllabi in both online and offline mode as well irrespective of the worst pandemic scenario. **Teachers continue using online teaching mode as is expected.** Teachers use other platforms such as Google Classroom, Google Meet from their Mobile handset also to serve the purpose.
